

Why would you choose us?

Different

At Insuraplex, we are different. We have developed purpose-built, agile systems to help us efficiently deal with all the finer details of a claim. We understand that every claim is unique and that no single method will meet the differing needs of our clients.

Innovative

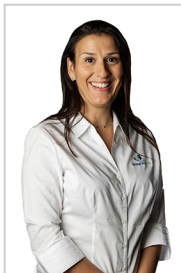

Innovation is the key to our continued success. At Insuraplex, we have developed our own unique software to ensure your project is being managed in 'real time' from the field. This software enables staff to immediately act on any task and manage the quality of the work on site with the push of a button. Our software developers are part of the team, giving us the ability to constantly evolve processes and make use of new technologies as they evolve.

Fast

Effective project management involves balancing three key factors: cost, quality and time. Competative pricing and quality workmanship are a given, but time is often the defining factor with Insuraplex.

Our philosophy is simple: get the work done as quickly as possible, in a cost effective way, whilst upholding the highest level of quality.

**Insuraplex is a registered construction supplier
for the Victorian Government**

We have the capacity to deliver quality work on your project, every time.

Restoring the past, building the future.

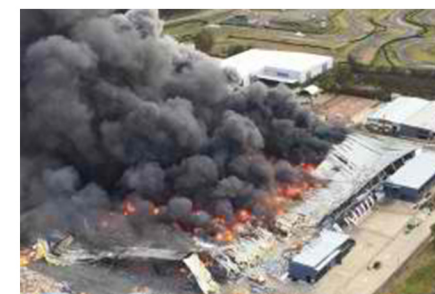

Who are we?

Insuraplex is a specialist builder in insurance reinstatement. With highly skilled and equipped staff, our company has grown from strength to strength and prides itself on innovative practices and software. Not only that, we strive to achieve a personal touch at every point to ensure all parties are dealt with in a professional manner at our clients time of need.

Insuraplex has a strong focus on positive outcomes to ensure client expectations are exceeded with every claim.

Time, cost and quality are major areas of focus that we pride ourselves on as this creates a point of difference that makes Insuraplex stand out.
